

LODE FALL ARREST SYSTEMS

Based in Johannesburg, South Africa, we have been in the manufacture and erection of high rise structures, installing fall arrest systems for the past 11 years.

Using our existing knowledge, we have identified a need for quality fall arrest systems and training. We believe in keeping work at height risks to a minimum.

LODE, a Services SETA accredited training provider offers training courses that are presented by qualified and experienced practitioners at our premises or on on-site.

LODE Fall Arrest Systems offers training on the following:

Manufacturers Recommendation Training:

- Level 1

“Basic Work at Heights & awareness to the user”

Duration: 1 Day

- Level 2

“Basic Work at Heights and Self Rescue”

Duration: 2 Days

Services SETA Accredited Training:

- 229998 “Fall Arrest Training”

“ Explain and perform fall arrest techniques when working at height ”

Duration: 2 Days

229995 “Basic Rescue Training”

“ Install, use and perform basic rescues from fall arrest systems and implement the fall protection plan ”

Duration: 3 Days

Please feel free to contact us with any of your training requirements.
